However Party A may request to change to another method of repayment as provided in Paragraph 1 at any time.

5. (Notice of lending rate adjustment)

payments on the date Party A requests debt negotiation and Party A proposes a debt repayment plan in writing at the same time of requesting debt negotiation that he or she is still willing to make installment payments according to the term of this contract, that the principal, interest, penalties and relevant expenses owed are to be amortized over the remaining term of the loan, and interest will be paid on the remaining principal based on the originally agreed interest rate.

If it is apparently difficult for Party A to perform the contract for the remaining term of the contract according to the originally agreed terms and conditions, Party A may request an extension of the repayment period. If Party B determines after review that Party A indeed has the aforementioned situation, Party B may, after obtaining the consent of the guarantor, extend the repayment period up to four (4) years. During the extended period, Party A is still required to pay interest on principal owed based on the originally agreed lending rate.

The term “self-use residence” referred to in the first paragraph hereof means a building owned by Party A and in which Party A and his or her family live. If Party A has two or more residences, self-use residence shall mean the principal residence. The term “claim on self-use residential loan” means a claim arising from Party A acquiring a loan from Party B to obtain funds needed for building or purchasing a self-use residence or for its improvement, including funds needed for acquiring the land or the right to use the self-use residence, and using the self-use residence as security for the loan.
